

# OCP SUMMIT

March 20-21  
2018  
San Jose, CA

**OPEN. FOR BUSINESS.**

# Building OCP Server Solutions with Project Olympus Building Blocks

Raymond Miles / VP Architecture / ZT Systems

OPEN. FOR BUSINESS.

# Agenda

- ZT Overview
- Project Olympus Building Blocks
- Server Solutions
- Building Blocks Advantage

# ZT Systems Overview

## Leading provider of optimized servers and storage servers for hyperscale data centers

- Founded in 1994 starting with desktops and SMB servers, 2004 shifted focus to DC Servers
- Private company for maximum customer confidentiality
- US based with global operations

## Built for Hyperscale

- Maximum design flexibility
- Custom supply chain management programs

## High volume manufacturing

- Flexible manufacturing with ability to scale up and down

# Project Olympus HW Building Blocks

- **Motherboards:** flexible expansion
- **Power Supply:** balanced 340W three-phase
- **Universal PDU:** AC power cord adaption
- **Rack:** 19" EIA-310 standard
- **Rack Manager:** restful API or Redfish via Ethernet

# Project Olympus Server Solutions

## Compute

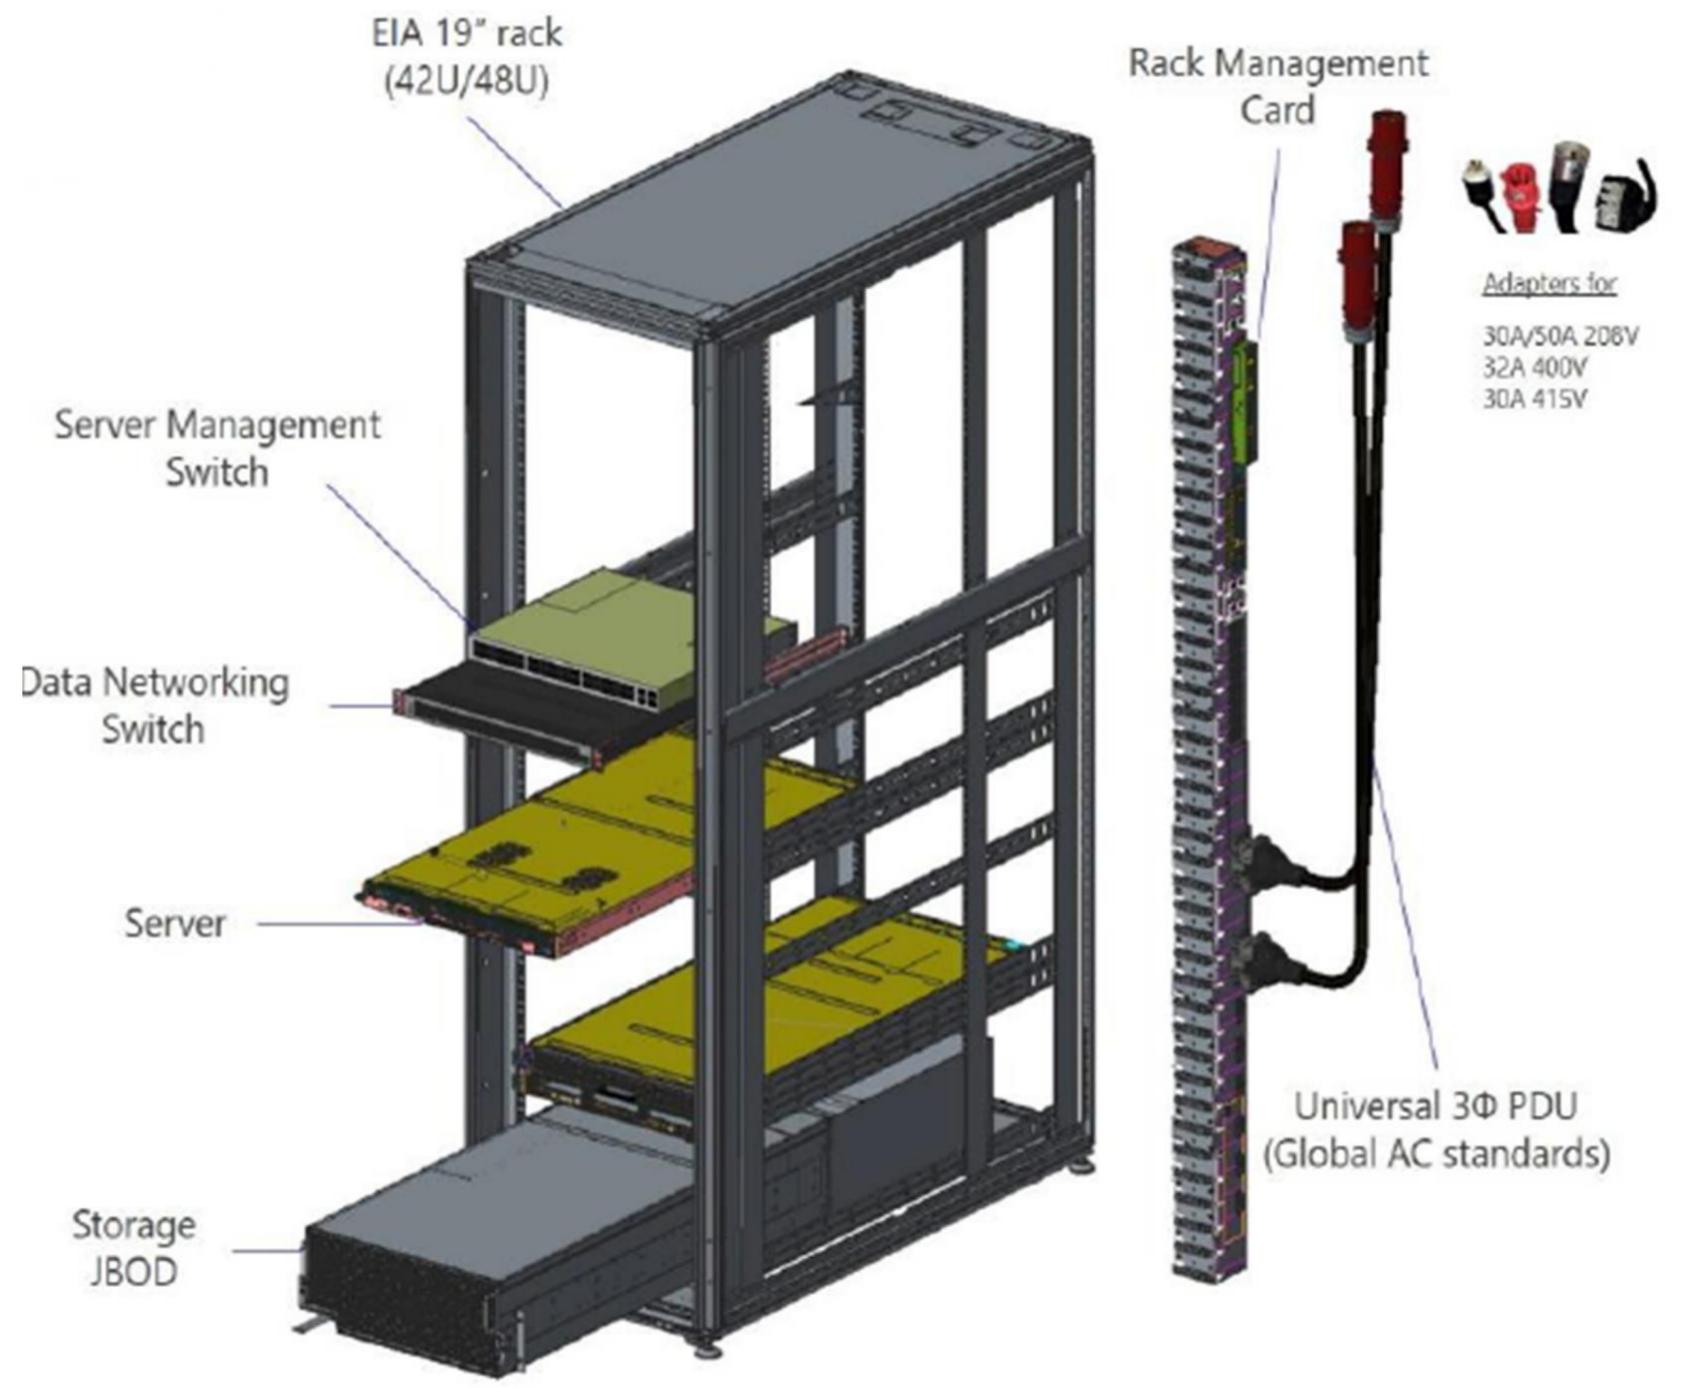

- US1-XSP (Intel)
- US1-EPYC (AMD)
- US1-THX2 (Cavium)
- US1-Centriq (Qualcomm)

## Storage

- HX-88
- FX-16

## GPU

- HGX-1

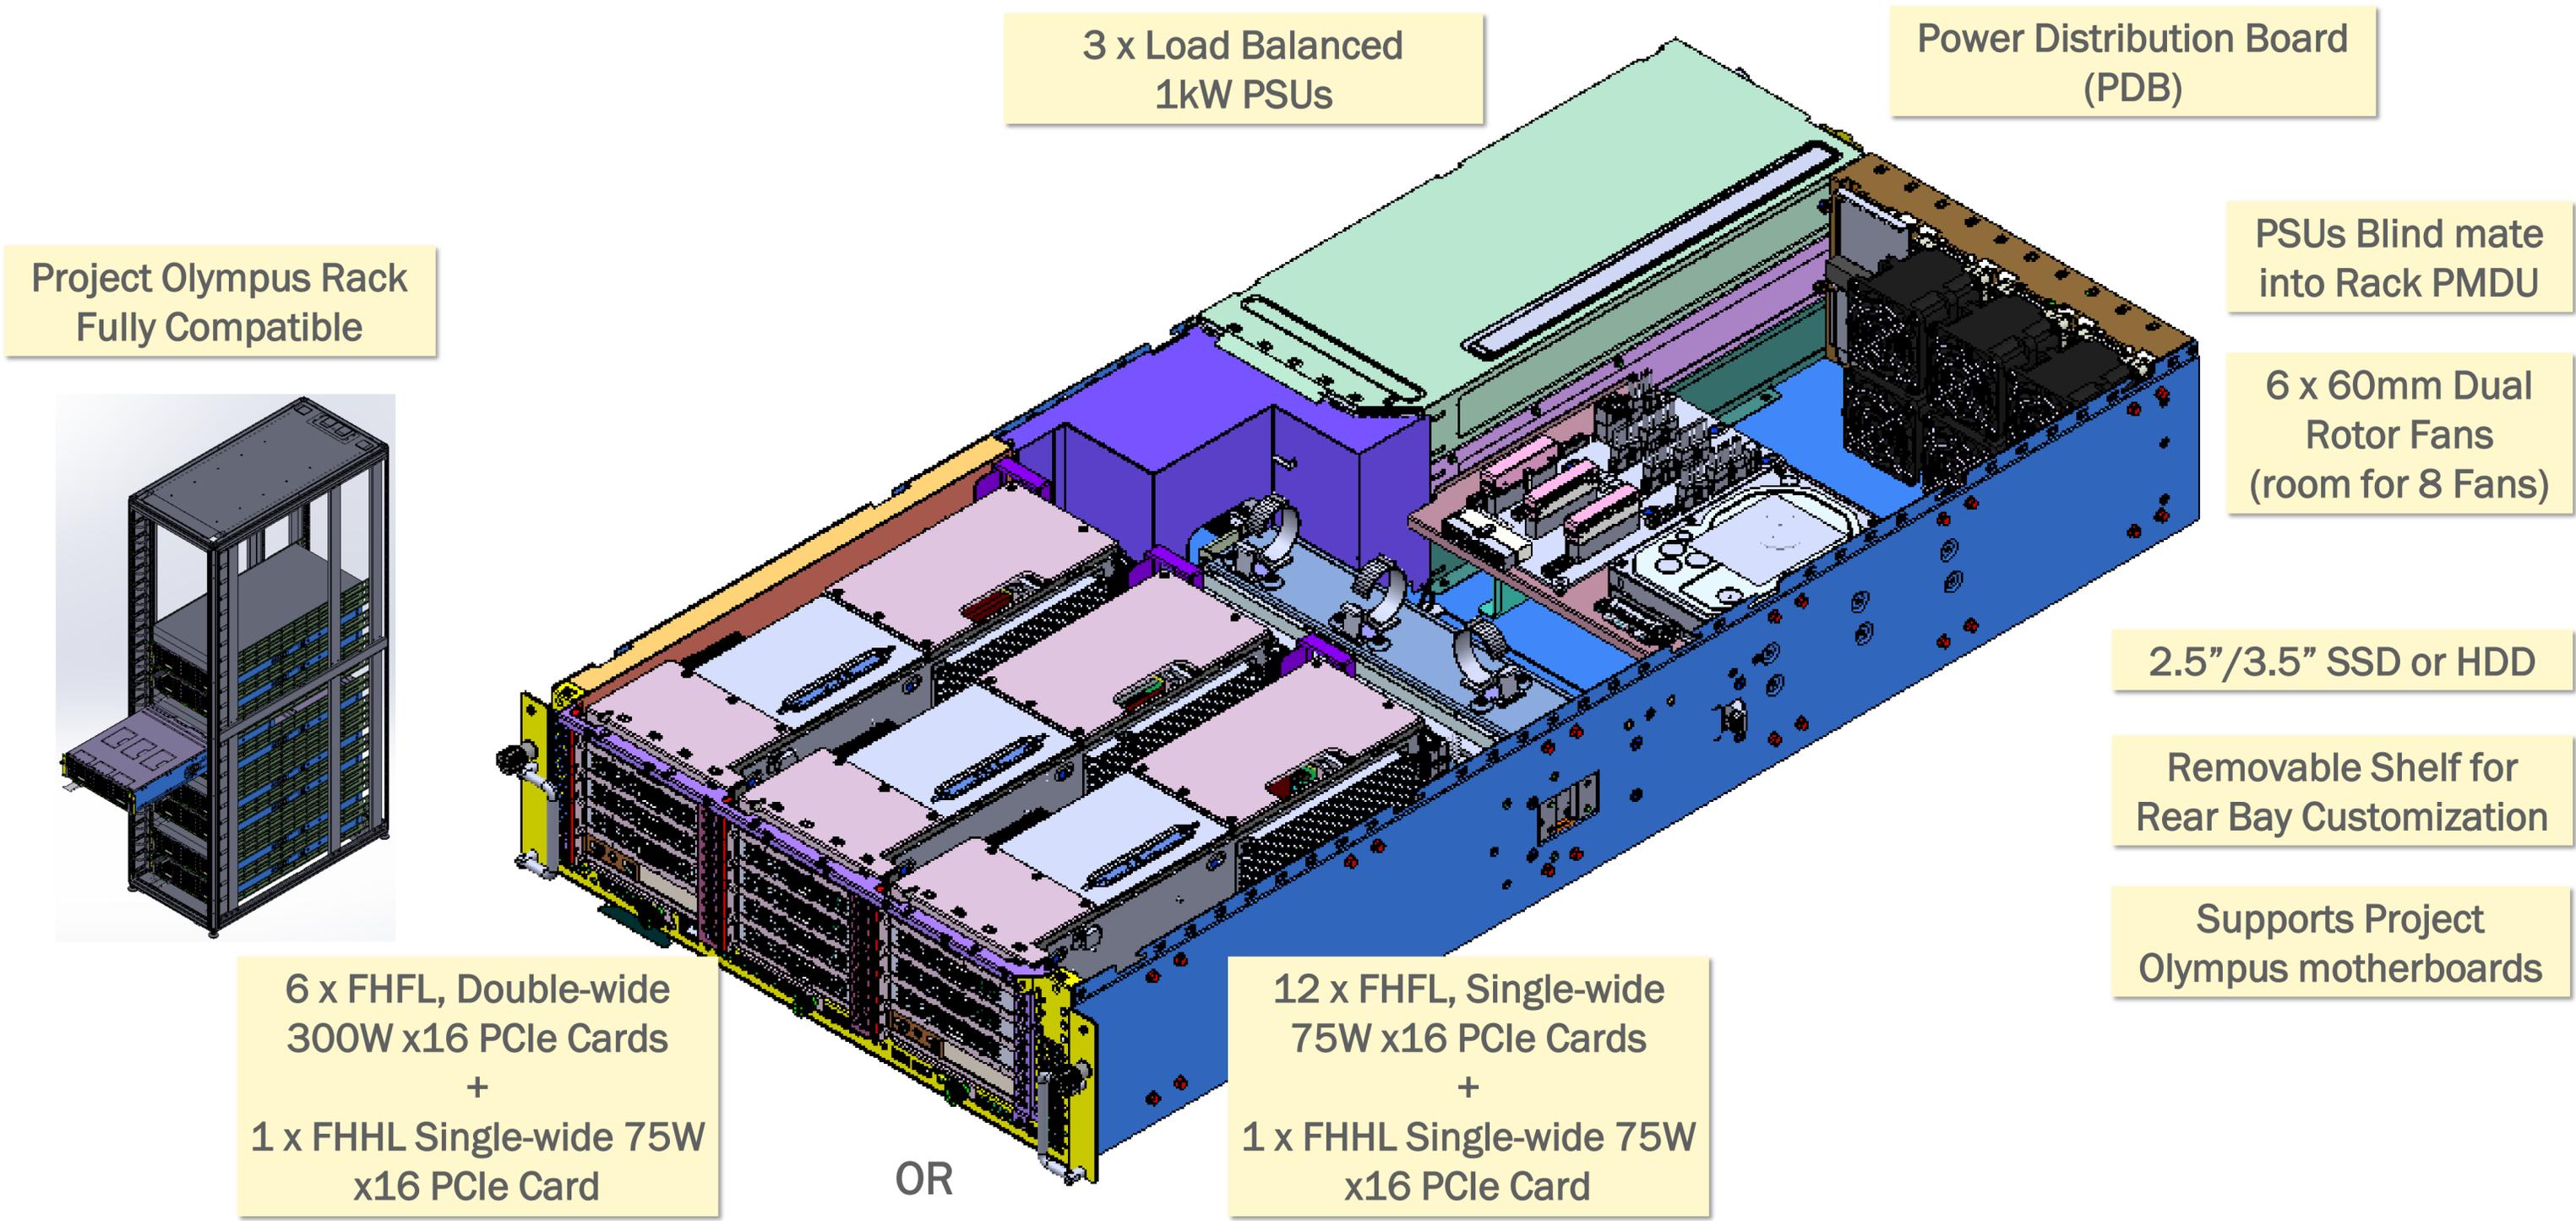

# ZT Server Solution: 3U PCIe Expansion

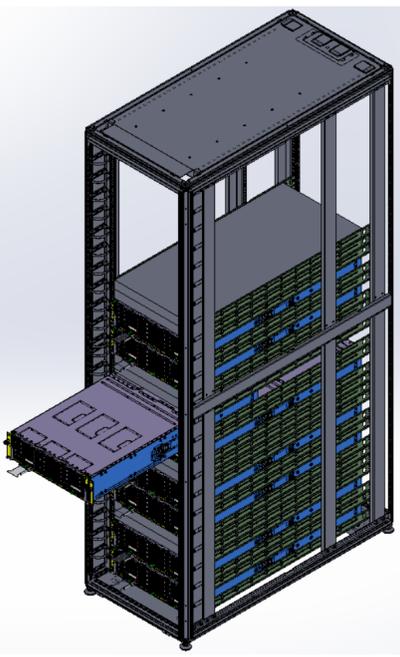

- Project Olympus Building Blocks
  - US1-XSP (Intel) motherboard
  - 1U heatsink
  - Power supply
  - Universal PDU
  - Rack
  - Rack manager
- ZT-Developed
  - Two versions of 3U chassis
  - Riser cards
  - Thermal/ducting solution
  - PDB (connecting 3xProject Olympus PSUs)

# ZT Server Solution: 3U PCIe Expansion

Project Olympus Rack Fully Compatible

3 x Load Balanced 1kW PSUs

Power Distribution Board (PDB)

PSUs Blind mate into Rack PMDU

6 x 60mm Dual Rotor Fans (room for 8 Fans)

2.5"/3.5" SSD or HDD

Removable Shelf for Rear Bay Customization

Supports Project Olympus motherboards

6 x FHFL, Double-wide 300W x16 PCIe Cards + 1 x FHHL Single-wide 75W x16 PCIe Card

OR

12 x FHFL, Single-wide 75W x16 PCIe Cards + 1 x FHHL Single-wide 75W x16 PCIe Card

# Building Blocks Advantage

- Flexible configuration of server solutions utilizing hardened server building blocks (HW and FW)
- Targeted HW and FW development
  - Use building blocks as the foundation → only develop necessary “pieces”
  - Lower risk and development costs while delivering optimized solutions

Success in the cloud requires speed and flexibility →  
Achieve both with Project Olympus building blocks

# Q&A

- Visit ZT Systems in booth A35
- Learn more at [www.ztsystems.com/ocp](http://www.ztsystems.com/ocp)
